01:06:21   Dan Fisher: Pat mentioned using AI to help students with clarifying their writing, and I've encouraged a few students who struggle with their writing to use it as an editing software; however, I hadn't thought about click through agreement issues. What are your thoughts about using AI to help revise and edit writing that isn't publicly available yet?

01:06:24   Daniel Gentry: Or a good resource for both the faculty member and the TA John? I would miss the mentoring and other relationship aspects of having a human TA. ;-)

01:09:59   JOHN HORNBEAK: Right Daniel...In course preparation....What are the time consuming parts that we dislike having to do...???

01:14:51   Dan Fisher: Very insightful and great discussion.

01:15:20   Sharon Schweikhart: Agree on more AOM/HCM - AUPHA collaborations! Thanks Tory!

01:15:23   Tory Hogan: I think it's important to remember that many of us are SUBJECT MATTER EXPERTS on topics we teach. So we are able to use the tool, but we can use it and recognize when it is inaccurate/not appropriate. I have concerns that learners who are new in a topic/field/subject matter won't be able to do the same

01:15:38   Carla Jackie Sampson: Everyone should check out this report: https://unesdoc.unesco.org/ark:/48223/pf0000385146
